SUMMARY

Graduate Full Stack Developer with a Bachelor of Science in Computer Science and a Minor in Artificial Intelligence. Currently gaining professional experience at Ocular, building PHP and Laravel web application features using Blade, MVC, SQL, migrations, validation, and CRUD workflows. Practical experience with React, Vue.js, TypeScript, JavaScript, Node.js, Express, REST API concepts, Git, and responsive web development. Interested in delivering reliable end-to-end applications from interface and business logic through data and deployment.

EDUCATION

Victoria University of Wellington

2023-2025

Bachelor of Science - Computer Science, Minor in Artificial Intelligence

Relevant study: Software Engineering, Web Development, Databases, Algorithms and Data Structures, Machine Learning, Human-Computer Interaction

EXPERIENCE

Full Stack Developer Intern

Jul 2026-Present

Ocular | Wellington

- Develop and maintain web application features using PHP and Laravel in a professional development environment.
- Build Laravel MVC functionality across Blade templates, routes, controllers, Eloquent models, validation, migrations, and database-backed CRUD workflows.
- Use SQLite and SQL to manage application data, troubleshoot framework and data-flow issues, and test features through the development cycle.
- Current development roadmap includes REST API endpoints, Laravel authentication and authorisation, production relational database integration, and application deployment.

Coding and Robotics Tutor

Jan 2024-Present

Scots College | Wellington

- Deliver programming and robotics sessions using Python and robotics platforms for students with varied experience levels.
- Support debugging, testing, structured problem solving, and step-by-step technical learning.
- Guide robotics competition preparation, including RoboCup, while building strong communication and mentoring skills.

PC and Mobile Phone Repair Technician

Dec 2025-Feb 2026

UR Tech | Wellington

- Diagnosed hardware and software faults across computers, mobile phones, and electronic devices.
- Installed and configured operating systems, completed device setup, data transfers, updates, and quality checks.
- Explained technical issues clearly to customers and recommended practical, reliable solutions.

PROJECTS

Reel Local Cinema SaaS | React, TypeScript, Node.js, Express

- Developed a full-stack cinema booking platform with movie browsing, protected routes, login and logout flow, booking workflow, user profiles, and backend API endpoints.
- Structured reusable frontend components, routes, backend services, error handling, and documentation to support maintainability and future database integration.
- Published a live project demo and used Git-based and AI-assisted workflows for planning, debugging, code review, and validation.

Event Management Web Application | Vue.js, JavaScript, HTML, CSS, REST APIs

- Built a responsive application supporting event creation, authentication flows, RSVP management, form validation, state updates, and user interactions.
- Connected frontend behaviour with backend services through REST API concepts and structured data handling, with a focus on usability and error handling.

Java Maze Game and Automated Testing | Java, JUnit, Git

- Implemented and debugged gameplay functionality in a team-based software project using object-oriented design and Git workflows.
- Created JUnit tests and a simple fuzz testing tool to improve reliability and identify unexpected behaviours.

TECHNICAL SKILLS

Frontend: Blade, React, Vue.js, JavaScript, TypeScript, HTML, CSS, React Router, Vite, responsive web design

Backend: PHP, Laravel, Eloquent ORM, Node.js, Express, MVC, CRUD, validation, REST API concepts, authentication and authorisation concepts

Databases and Deployment: SQL, SQLite, migrations, relational databases, PostgreSQL exposure, production database integration, AWS Cloud fundamentals

Tools and Practices: Git, GitHub, debugging, testing, code review, Agile development, documentation, deployment workflows, AI-assisted development

CERTIFICATIONS AND ADDITIONAL INFORMATION

AWS Certified Cloud Practitioner - 2026

VUW Git and GitHub Workshop - 2024

Full New Zealand Driver Licence | Eligible to work in New Zealand | Open to relocation
