SUMMARY

Graduate Data and AI Engineer with a Bachelor of Science in Computer Science and a Minor in Artificial Intelligence from Victoria University of Wellington. Practical experience using Python, SQL, machine learning workflows, data preparation, model evaluation, and software engineering fundamentals. Interested in data engineering, AI systems, automation, cloud-based data platforms, and reliable solutions that process and analyse data. Working knowledge of Azure and Snowflake, supported by AWS cloud certification. Skilled in using AI agent tools such as ChatGPT and Codex-style workflows for SQL assistance, data exploration, debugging, pipeline planning, documentation, and model evaluation support.

EDUCATION

Victoria University of Wellington

Bachelor of Science - Computer Science, Minor in Artificial Intelligence, Relevant study areas: Machine Learning, Databases, Data Structures, Software Engineering, Network Systems, Human Computer Interaction 2023–2025

EXPERIENCE

Coding and Robotics Tutor

2024–Present

Scots College

Wellington

- Teach programming and structured problem solving using Python and robotics platforms.
- Support students with debugging, testing, data handling, and step-by-step logical thinking.
- Guide students participating in robotics competitions including RoboCup.
- Explain programming, algorithms, and debugging concepts clearly to different learning levels.

PC and Mobile Phone Repair Technician

Dec 2025–Feb 2026

UR Tech

Wellington

- Diagnosed and repaired computers, mobile phones, and electronic devices across hardware and software issues.
- Investigated system faults, completed operating system setup, data transfers, and quality checks.
- Communicated technical issues clearly and strengthened practical troubleshooting skills.

PROJECTS

Handwritten Character Recognition Project | Python, Machine Learning, CNN, Vision Transformer

- Built a machine learning prototype to classify handwritten letters and numbers from image datasets.
- Prepared image data for training and evaluation, including dataset cleaning, preprocessing, class handling, and experiment organisation.
- Implemented and compared CNN and Vision Transformer approaches to understand model behaviour and performance trade-offs.
- Evaluated incorrect predictions and adjusted preprocessing and training decisions to improve model quality.

AG News Text Classification Project | Python, Machine Learning, NLP

- Built and evaluated multiple text classification models for news category prediction using structured machine learning workflows.
- Compared traditional machine learning, CNN-based deep learning, and transformer-based approaches.
- Processed text data, prepared training and testing sets, and evaluated results using accuracy and class-level performance metrics.
- Used AI agent tools to support debugging, model behaviour explanation, report planning, and code review while validating technical outputs.

Data-Oriented Software Testing Project | Java, JUnit, Git

- Contributed to a software engineering project focused on application behaviour, reliability, and testing.
- Designed unit tests using JUnit to detect software issues early and improve maintainability.
- Built a simple fuzz testing tool to repeatedly run the application and identify unexpected behaviours.
- Strengthened understanding of reliable engineering practices that support data and AI system quality.

TECHNICAL SKILLS

Programming and Data: Python, SQL, Java, JavaScript, TypeScript

Data and AI: Data Cleaning, Data Processing, Feature Preparation, Classification Models, Error Analysis, Model Evaluation

Machine Learning: CNNs, Vision Transformers, NLP Classification, Accuracy, F1 Score, Model Comparison

Cloud and Platforms: Azure working knowledge, Snowflake working knowledge, AWS Cloud fundamentals, Relational Databases

Tools: Git, GitHub, Jupyter, Google Colab, Agile Development, Documentation, AI Agent Assisted Workflow

CERTIFICATIONS

AWS Certified Cloud Practitioner - 2026

VUW Git and GitHub Workshop - 2024

ADDITIONAL INFORMATION

Full New Zealand Driver Licence

REFEREES

Referees available on request.
