SUMMARY

Graduate Full Stack Developer with a Bachelor of Science in Computer Science and a Minor in Artificial Intelligence from Victoria University of Wellington. Practical experience building web applications using React, Vue.js, TypeScript, JavaScript, Node.js, Express, SQL, HTML, CSS, and REST APIs. Interested in developing reliable, responsive, and user-focused applications within collaborative engineering teams. Skilled in using AI agent tools such as ChatGPT and Codex-style workflows for implementation planning, debugging, code review, documentation, and feature development while reviewing and validating outputs carefully.

EDUCATION

Victoria University of Wellington

Bachelor of Science - Computer Science, Minor in Artificial Intelligence, Relevant study areas: Software Engineering, Web Development, Databases, Algorithms and Data Structures, Machine Learning, Human Computer Interaction 2023–2025

EXPERIENCE

Coding and Robotics Tutor

2024–Present

Scots College

Wellington

- Deliver coding and robotics lessons using Python and robotics platforms.
- Support students with debugging, testing, structured problem solving, and technical exercises.
- Guide students preparing for robotics competitions including RoboCup.
- Adapt explanations to students with different levels of experience and learning styles.

PC and Mobile Phone Repair Technician

Dec 2025–Feb 2026

UR Tech

Wellington

- Diagnosed and repaired computers, mobile phones, and electronic devices across hardware and software issues.
- Installed and configured operating systems, completed device setup, data transfers, and quality checks.
- Explained technical issues clearly to customers and recommended practical solutions.

PROJECTS

Reel Local Cinema SaaS | React, TypeScript, Node.js, Express

- Developed a full-stack cinema booking platform for independent cinemas, local film clubs, and community screening events.
- Built frontend features with React, TypeScript, Vite, and React Router, including movie browsing, protected routes, booking workflow, and user profile pages.
- Developed backend services using Node.js, Express, and TypeScript, including health check functionality and movie API endpoints.
- Organised frontend routes, reusable components, backend routes, and project documentation to improve maintainability.
- Used AI agent assisted workflows to break down features, debug errors, review code, and validate implementation decisions.
- Currently extending the platform towards PostgreSQL integration, JWT authentication, Docker-based development, and cloud deployment.

Event Management Web Application | Vue.js, JavaScript, HTML, CSS, REST APIs

- Built a responsive web application supporting event creation, user authentication flows, RSVP management, and user interactions.
- Developed frontend functionality using Vue.js, JavaScript, HTML, and CSS with a focus on responsive layout and usability.
- Integrated frontend interactions with backend services through REST API concepts and structured data handling.
- Implemented form validation, state updates, and error handling to improve user experience.

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and maintained a personal portfolio website to showcase projects, technical skills, and professional background.
- Built responsive layouts, project sections, and clear navigation to support recruiter and employer review.
- Managed updates through Git and GitHub and applied deployment-focused workflows.

TECHNICAL SKILLS

Frontend: React, Vue.js, JavaScript, TypeScript, HTML, CSS, React Router, Vite, Responsive Web Design

Backend: Node.js, Express, REST APIs, API Endpoints, Application Health Checks, Authentication Flow Concepts

Databases and Cloud: SQL, Relational Databases, PostgreSQL exposure, AWS Cloud fundamentals

Testing and Tools: Git, GitHub, Debugging, Manual Testing, JUnit, Figma, Agile Development, AI Agent Assisted Development

CERTIFICATIONS

AWS Certified Cloud Practitioner - 2026

VUW Git and GitHub Workshop - 2024

ADDITIONAL INFORMATION

Full New Zealand Driver Licence
