SUMMARY

Graduate Software Engineer with a Bachelor of Science in Computer Science and a Minor in Artificial Intelligence from Victoria University of Wellington. Practical experience building software projects using Java, Python, JavaScript, TypeScript, Node.js, Express, SQL, and Git-based workflows. Interested in backend development, reliable software design, testing, debugging, cloud fundamentals, and AI-assisted engineering. Skilled in using AI agent tools such as ChatGPT and Codex-style workflows for planning, debugging, documentation, code review, and implementation support while validating outputs before integration.

EDUCATION

Victoria University of Wellington

Bachelor of Science - Computer Science, Minor in Artificial Intelligence, Relevant study areas: Software Engineering, Algorithms and Data Structures, Databases, Machine Learning, Human Computer Interaction, Network Systems 2023–2025

EXPERIENCE

Coding and Robotics Tutor

2024–Present

Scots College

Wellington

- Deliver coding and robotics sessions to secondary school students using Python and robotics platforms.
- Support students with debugging, testing, structured problem solving, and technical exercises.
- Guide students preparing for robotics competitions including RoboCup.
- Explain technical concepts clearly and adapt teaching style to different learning levels.

PC and Mobile Phone Repair Technician

Dec 2025–Feb 2026

UR Tech

Wellington

- Diagnosed and repaired computers, mobile phones, and electronic devices across hardware and software issues.
- Installed and configured operating systems, completed device setup, data transfers, and quality testing.
- Communicated technical issues clearly to customers and recommended practical solutions.

PROJECTS

Reel Local Cinema SaaS | React, TypeScript, Node.js, Express

- Developed a full-stack cinema booking platform for independent cinemas, local film clubs, and community screening events.
- Built backend services with Node.js, Express, and TypeScript, including API endpoints and application health checks.
- Implemented frontend features including movie browsing, protected routes, login and logout flow, booking workflow, and user profile pages.
- Used AI agent assisted workflows to plan features, debug issues, review code, improve documentation, and validate implementation decisions.
- Currently extending the platform towards PostgreSQL integration, JWT authentication, Docker-based development, and cloud deployment.

Java Maze Game and Testing Project | Java, JUnit, Git

- Contributed to a team-based software engineering project to build a 2D maze game with reliable gameplay behaviour.
- Implemented and debugged gameplay functionality while collaborating through Git-based workflows.

- Designed and implemented JUnit test cases to improve reliability and detect regressions.
- Built a simple fuzz testing tool to repeatedly run the application and identify unexpected edge-case failures.

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and maintained a personal portfolio website to showcase software projects, technical skills, and professional background.
- Built responsive layouts, clean navigation, and project-focused content for employer review.
- Managed source control through Git and GitHub and deployed updates through a modern web workflow.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, TypeScript, HTML, CSS

Backend and Software: Node.js, Express, REST APIs, Object-Oriented Programming, Data Structures, Algorithms

Databases and Cloud: SQL, Relational Databases, PostgreSQL exposure, AWS Cloud fundamentals

Testing: JUnit, Test Case Design, Fuzz Testing, Manual Testing, Debugging, Code Review

Tools: Git, GitHub, Figma, Agile Development, SDLC, AI Agent Assisted Development

CERTIFICATIONS

AWS Certified Cloud Practitioner - 2026

VUW Git and GitHub Workshop - 2024

ADDITIONAL INFORMATION

Full New Zealand Driver Licence

REFEREES

Referees available on request.
