SUMMARY

Graduate Web Developer with a Bachelor of Science in Computer Science and a Minor in Artificial Intelligence from Victoria University of Wellington. Practical experience building responsive and user-focused web applications using React, Vue.js, JavaScript, TypeScript, HTML, CSS, Node.js, Express, SQL, and REST APIs. Interested in frontend and web development roles where I can build clean interfaces, improve user experience, and contribute to reliable web applications. Skilled in using AI agent tools such as ChatGPT and Codex-style workflows for implementation planning, debugging, documentation, UI improvement, and code review while carefully validating generated outputs.

EDUCATION

Victoria University of Wellington

Bachelor of Science - Computer Science, Minor in Artificial Intelligence, Relevant study areas: Web Development, Human Computer Interaction, Software Engineering, Databases, Algorithms and Data Structures, Machine Learning 2023–2025

EXPERIENCE

Coding and Robotics Tutor

2024–Present

Scots College

Wellington

- Deliver coding and robotics lessons using Python and robotics platforms.
- Support students with debugging, testing, structured problem solving, and technical exercises.
- Adapt explanations to students with different levels of experience and learning styles.
- Developed communication and mentoring skills directly relevant to collaborative development teams.

PC and Mobile Phone Repair Technician

Dec 2025–Feb 2026

UR Tech

Wellington

- Diagnosed and repaired computers, mobile phones, and electronic devices across hardware and software issues.
- Installed and configured operating systems, completed device setup, data transfers, and quality checks.
- Explained technical issues clearly to customers and recommended practical solutions.

PROJECTS

Reel Local Cinema SaaS | React, TypeScript, Node.js, Express

- Developed a responsive cinema booking web application for independent cinemas, local film clubs, and community screening events.
- Built frontend features using React, TypeScript, Vite, and React Router, including movie browsing, movie detail pages, protected routes, booking workflow, and user profile pages.
- Implemented login and logout flow, user-facing navigation, structured page layouts, and reusable frontend components.
- Connected frontend functionality with backend API endpoints built using Node.js, Express, and TypeScript.
- Used AI agent assisted workflows to plan features, debug frontend issues, review code, improve documentation, and validate implementation decisions.
- Currently extending the platform towards PostgreSQL integration, JWT authentication, Docker-based development, and cloud deployment.

Event Management Web Application | Vue.js, JavaScript, HTML, CSS, REST APIs

- Built a responsive web application supporting event creation, user authentication flows, RSVP management, and user interaction features.

- Developed frontend functionality using Vue.js, JavaScript, HTML, and CSS with a focus on responsive layout and usability.
- Integrated frontend interactions with backend services through REST API concepts and structured data handling.
- Implemented form validation, state updates, and error handling to improve user experience.
- Strengthened practical understanding of component-based development, UI behaviour, and web application structure.

Personal Portfolio Website | HTML, CSS, JavaScript

- Designed and maintained a personal portfolio website to showcase projects, technical skills, and professional background.
- Built responsive layouts, project sections, and clear navigation to support recruiter and employer review.
- Managed project updates through Git and GitHub and applied deployment-focused workflows.
- Improved content structure to better communicate web development, full-stack, and AI-related project experience.

TECHNICAL SKILLS

Frontend: React, Vue.js, JavaScript, TypeScript, HTML, CSS, React Router, Vite, Responsive Web Design

Web Development: Component-Based Development, UI Implementation, Form Validation, User Input Handling, Accessibility Awareness

Backend Exposure: Node.js, Express, REST APIs, API Endpoints, Authentication Flow Concepts

Databases and Cloud: SQL, Relational Databases, PostgreSQL exposure, AWS Cloud fundamentals

Testing and Tools: Git, GitHub, Debugging, Manual Testing, Figma, Agile Development, AI Agent Assisted Development

CERTIFICATIONS

AWS Certified Cloud Practitioner - 2026

VUW Git and GitHub Workshop - 2024

ADDITIONAL INFORMATION

Full New Zealand Driver Licence
