SUMMARY

Motivated recent Computer Science graduate with hands-on experience in computer and mobile device troubleshooting, operating system setup, customer support, and technical problem solving. Interested in starting my IT career in a hands-on support role where I can assist users, set up devices, resolve day-to-day technical issues, and continue developing skills across Microsoft 365, Entra ID, networking, cybersecurity, infrastructure support, and systems administration. Strong communication skills developed through technical repair work and coding tutoring, with a practical and patient approach to helping users solve problems.

EDUCATION

Victoria University of Wellington

Bachelor of Science - Computer Science; Minor in Artificial Intelligence, Relevant study areas: Software Engineering, Network Systems, Databases, Algorithms and Data Structures, Machine Learning, Human Computer Interaction 2023–2025

EXPERIENCE

PC and Mobile Phone Repair Technician

Dec 2025–Feb 2026

UR Tech

- Diagnosed and repaired computers, mobile phones, and electronic devices across hardware and software issues.
- Installed and configured Windows and macOS operating systems, completed device setup, data transfers, updates, and quality checks.
- Troubleshoot software faults, device performance issues, login/setup problems, and user-reported technical issues.
- Assisted customers by explaining technical problems clearly, remaining patient, and recommending practical solutions.
- Handled devices carefully, followed repair processes, and ensured systems were tested before return to customers.
- Built strong hands-on troubleshooting skills relevant to IT support, device management, and user assistance.

Coding and Robotics Tutor

2024–Present

Scots College, Wellington

- Teach coding and robotics concepts to students using Python and robotics platforms.
- Support students with debugging, step-by-step problem solving, and technical troubleshooting.
- Explain technical ideas clearly to people with different levels of experience.
- Guide students through practical problem-solving tasks and robotics competition preparation.
- Developed strong communication, patience, teamwork, and user-support skills.

PROJECTS

Reel Local Cinema SaaS | React, TypeScript, Node.js, Express

- Developed a full-stack web application with frontend pages, backend API endpoints, login flow, booking workflow, and user profile functionality.
- Applied structured debugging, Git-based version control, and documentation throughout development.
- Strengthened understanding of web systems, API behaviour, user account flows, and application troubleshooting.
- Used AI agent assisted workflows to support debugging, documentation, planning, and code review while validating outputs before integration.

Java Maze Game and Testing Project | Java, JUnit, Git

- Contributed to a team-based software engineering project focused on application behaviour, testing, and reliability.
- Designed and implemented JUnit tests to detect software issues and improve maintainability.
- Built a simple fuzz testing tool to repeatedly run the application and identify unexpected behaviours.
- Developed practical experience with debugging, error investigation, and structured technical problem solving.

TECHNICAL SKILLS

IT Support: Hardware Troubleshooting, Software Troubleshooting, Device Setup, User Support, Workstation Setup, Basic IT Administration

Operating Systems: Windows, macOS, Mobile Device Setup, Operating System Installation and Configuration

Microsoft and Cloud: Microsoft 365 basic knowledge, Entra ID / Azure AD user account concepts, AWS Cloud fundamentals

Networking: Wi-Fi Setup, Router Configuration, Basic IP/DNS/DHCP Understanding, Network Troubleshooting

Security and Maintenance: Antivirus Awareness, Backup Awareness, System Updates, Data Transfer, Device Testing

Tools and Practices: Git, GitHub, Ticket-style Problem Solving, Documentation, Asset Tracking Awareness, AI-assisted Troubleshooting

Programming Background: Python, Java, JavaScript, SQL, HTML, CSS

CERTIFICATIONS

AWS Certified Cloud Practitioner - 2026

VUW Git and GitHub Workshop - 2024

ADDITIONAL INFORMATION

• Available for junior IT support, helpdesk, service desk, desktop support, and systems support roles • Strong interest in Microsoft 365, Entra ID, networking, cybersecurity, infrastructure, and business systems
