Graduate Programme Candidate | Computer Science & AI

SUMMARY

Recent Computer Science graduate with a Minor in Artificial Intelligence, interested in joining a broad graduate programme to build commercial, analytical, operational, and stakeholder-facing experience. Strong foundation in problem solving, data and technology, communication, customer service, and teamwork through university projects, tutoring, technical support, and customer-facing work. Motivated to learn across different business areas, contribute to meaningful work, and grow into a well-rounded professional.

EDUCATION

Bachelor of Science - Computer Science, Minor in Artificial Intelligence

2023-2025

Victoria University of Wellington

- Relevant study areas: Software Engineering, Databases, Algorithms and Data Structures, Machine Learning, Human Computer Interaction, Network Systems.

KEY SKILLS

Problem Solving: Structured thinking, troubleshooting, analytical reasoning, attention to detail, and practical decision making

Communication: Customer service, tutoring, written communication, stakeholder-focused explanation, and clear technical translation

Technology and Data: Python, Java, SQL, Microsoft Office, data processing, AI-assisted tools, and software project experience

Business Readiness: Teamwork, reliability, adaptability, independent learning, time management, and willingness to rotate across teams

Tools: Git, GitHub, Excel, Word, PowerPoint, documentation, debugging, and structured project workflows

EXPERIENCE

Coding and Robotics Tutor

2024-Present

Scots College

- Deliver coding and robotics sessions using Python and robotics platforms, supporting students with debugging and structured thinking.
- Explain technical concepts clearly and adapt communication style to different levels of understanding.
- Guide students through practical problem-solving tasks and encourage teamwork during technical projects and competition preparation.

PC and Mobile Phone Repair Technician

Dec 2025-Feb 2026

UR Tech

- Diagnosed hardware and software issues across computers, mobile devices, operating systems, and user-reported faults.
- Completed device setup, system configuration, data transfers, updates, quality testing, and customer support.
- Communicated technical issues clearly and recommended practical solutions in a customer-facing environment.

Front-of-House Team Member

2021-2025

Sushiya, One Sushi, Dynasty Restaurant

- Delivered customer service in fast-paced environments while handling orders, payments, enquiries, and daily operational tasks.
- Worked closely with team members under pressure and developed reliability, patience, and professional communication skills.

SELECTED PROJECTS

Reel Local Cinema SaaS | *React, TypeScript, Node.js, Express*

- Built a full-stack cinema booking platform with movie browsing, booking workflow, login/logout flow, protected routes, and user profile pages.
- Developed backend API endpoints and used Git-based workflows, documentation, debugging, and AI-assisted development tools.
- Strengthened understanding of digital product structure, user journeys, data flow, and maintaining reliable web-based systems.

Data and AI Projects | *Python, SQL, Machine Learning*

- Prepared datasets, processed structured information, compared model outputs, and evaluated results using accuracy and class-level metrics.
- Worked with classification tasks including handwritten character recognition and text classification, building analytical and technical reporting skills.
- Strengthened data validation, experimentation, problem framing, and evidence-based decision making.

Java Maze Game and Testing Project | *Java, JUnit, Git*

- Contributed to a team-based software engineering project with a focus on reliable behaviour, testing, and collaborative development.
- Designed JUnit tests and built a simple fuzz testing tool to identify unexpected behaviours and improve software quality.
- Developed confidence in debugging, documenting issues, and communicating progress within a team.

CERTIFICATIONS

- AWS Certified Cloud Practitioner - 2026
- VUW Git and GitHub Workshop - 2024

ADDITIONAL INFORMATION

- Fluent in English and Mandarin.
- Strong interest in energy, technology, data, operations, customer experience, and broad graduate rotation opportunities.
- Referees available on request.
